

Laboratory PP Bottles

Fields of application:

Made quality PP (polypropylene), our PP bottles can facilitate our customers for storing, packaging, and transferring either solid or liquid lab reagents. It has been proved to be used in many chemical, pharmaceutical and bioscience field.

Properties:

- Made of quality PP (polypropylene).
- Good resistance to relatively high temperature and pressure (enough for pasteurization).
- Leaking-proof cap design.
- Wide-mouth opening makes the pouring easier.
- Low cost.
- Different colors available. Basically white and amber.

Different sizes available:

Cat. No	Color	Capacity mL	Most Capacity mL	Bottle Dimension (H x D) mm	Neck Diameter mm	Case Pack pcs/case	Price Euro/ case
SG005N	White	5	10	42 x 24	14	2000	300
SG005A	Amber	5	10	42 x 24	14	2000	300
SG010N	White	10	13	52 x 24	14	1200	220
SG010A	Amber	10	13	52 x 24	14	1200	220
SG015N	White	15	18	52 x 27	14	1200	220
SG015A	Amber	15	18	52 x 27	14	1200	220
SG030N	White	30	35	61 x 34	21	800	200
SG030A	Amber	30	35	61 x 34	21	800	200
SG065N	White	65	75	84 x 41	25	400	140
SG065A	Amber	65	75	84 x 41	25	400	140
SG125N	White	125	145	98 x 50	34	250	130
SG125A	Amber	125	145	98 x 50	34	250	130
SG250N	White	250	290	128 x 31	35	150	120
SG250A	Amber	250	290	128 x 31	35	150	120
SG500N	White	500	550	164 x 74	47	120	130
SG500A	Amber	500	550	164 x 74	47	120	130

Laboratory Glass Bottles with Blue Caps

Fields of application:

Made of standard borosilicate, our glass bottles can facilitate our customers for storing, packaging, and transferring either solid or liquid lab reagents. With a good resistance to relatively high temperature it has been proved to be used in many chemical, pharmaceutical and bioscience fields. Bottles have enhanced graduations and marking spots are permanent white enamel. This general use bottle is provided with wide opening (approx. 30 mm ID) GL 45 screw thread and supplied with linerless autoclavable (140°C max) polypropylene blue cap.

Properties:

- Made of standard borosilicate.
- Ceramic-glazed graduated scale and big lettering panel.
- Good resistance to high temperature up to 500°C.
- Good resistance to high pressure.
- Leaking-proof screw cap design.
- Wide-mouth opening/ and the available pouring ring (clear PP) make the pouring easier.
- Low cost.

Different sizes available:

Cat. No	Color	Capacity mL	Bottle Dimension (H x D) mm	Neck Diameter mm	Case Pack pcs/case	Price Euro/ case
SB00A	Clear	100	105x56	45	80	120
SB00B	Clear	250	143x70	45	64	120
SB00C	Clear	500	181x86	45	48	120
SB00C	Clear	1000	230x90	45	24	100
